Le Serein

6 December 2024 - 12 January 2025

Opening Thursday, 5 December 2024, 6-9pm

Le Serein draws inspiration from the Creole architecture and Caribbean climate to evoke the atmosphere of a veranda at dusk. The exhibition is conceived as a space for exchange, extending a dialogue initiated during Lucas Erin's exhibitions *Nou Kontan We Zot* (Espace 3353, Carouge) and *Mawon Ciel* (La Salle de Bains, Lyon). Through reflections on the colonial legacy of representations in the recent media coverage of the protests against the high cost of living in Martinique, and on the invisibilization of the key role held by the Nardal sisters' literary salon in the history of the Négritude movement, Lucas Erin's installation transforms the exhibition into a site of self reflective conjunction of knowledges and subjectivities, poised at the threshold between the visible and the invisible.

With a text by Seloua Luste Boulbina.
